

# Vivere giornate a colori

Conoscenza dei colori primari  
Saper associare i colori

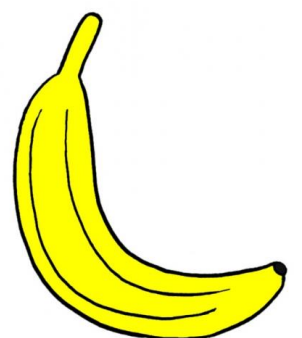

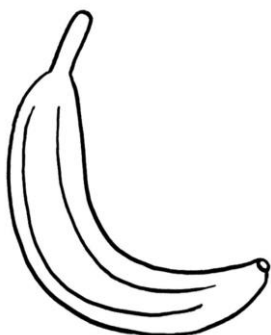

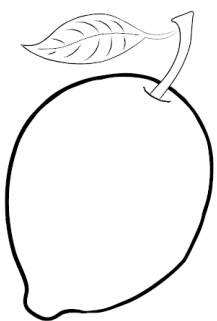

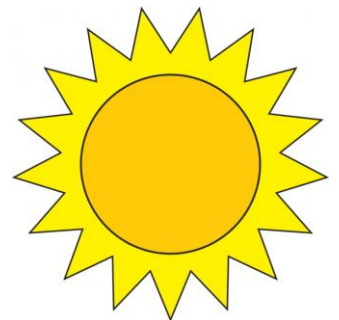

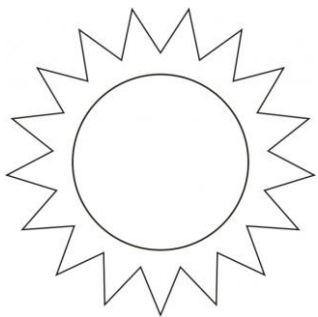

I colori, costituiscono un grande "mezzo espressivo" e consentono la fruizione di esperienze ad alto valore formativo.

I bambini, con la scoperta e l'utilizzo dei colori si appropriano di un linguaggio che è creativo, espressivo, comunicativo.

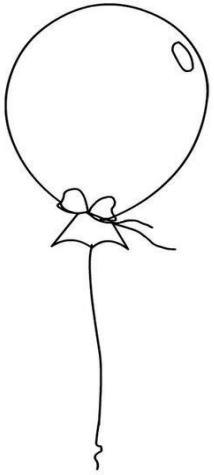

Mamme, provate a disegnare questi semplici oggetti su un foglio bianco, i vostri bambini potranno colorarli con pennarelli, matite colorate, acquerelli.

Ogni oggetto con il giusto colore e senza dimenticare di divertirvi.

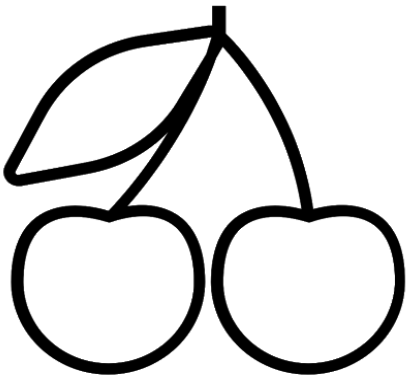

## GIALLO

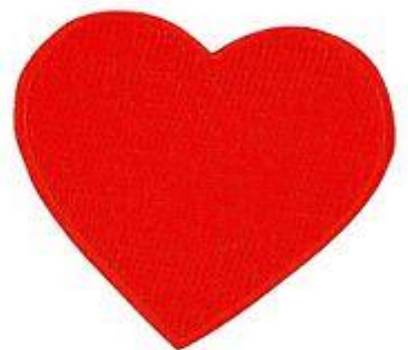

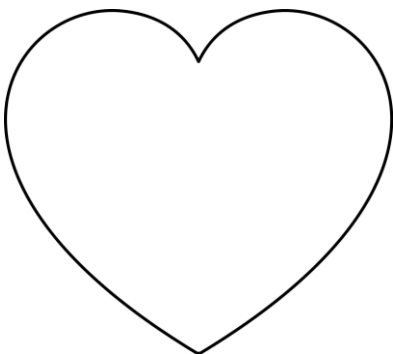

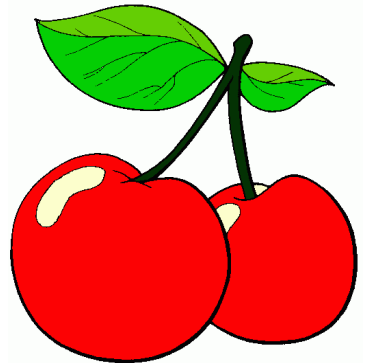

# ROSSO
