A place to make peace

Hen activity

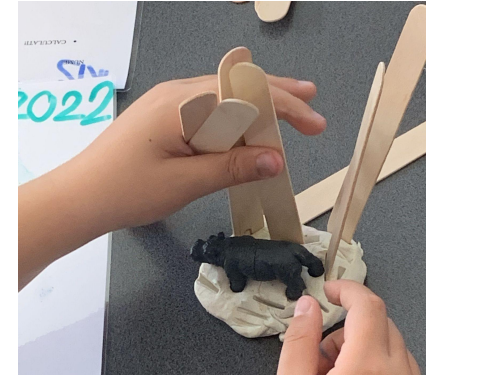

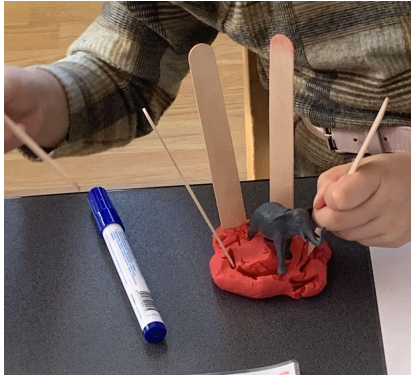

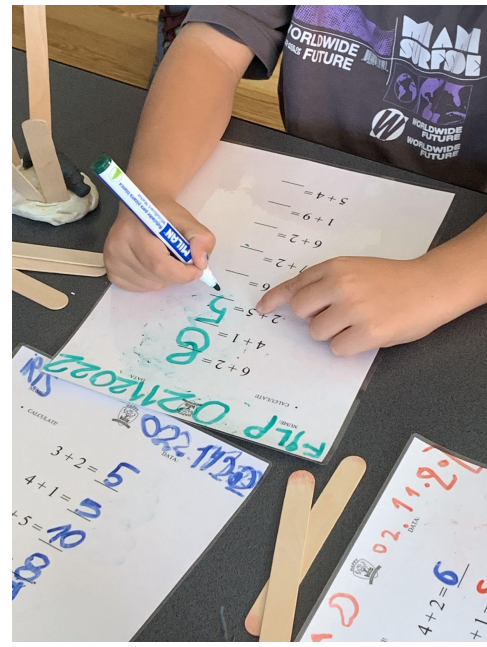

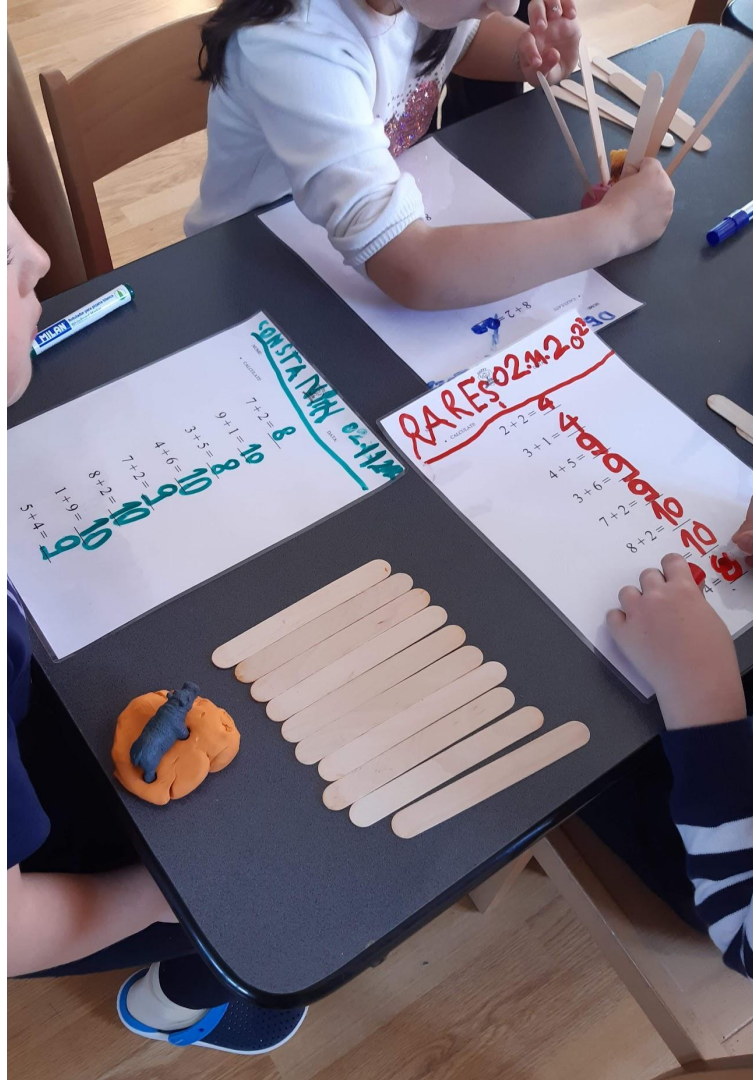

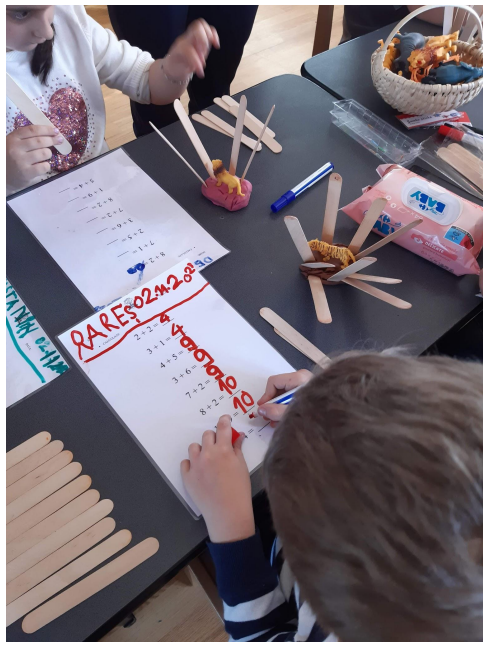

Maths and Art,
Art and Maths

Maths and Nature,
Nature and Maths

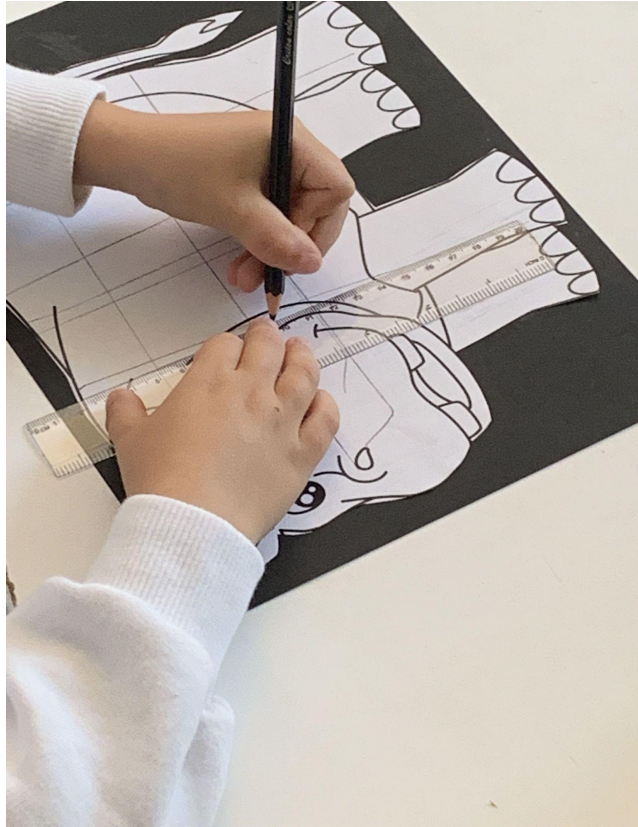

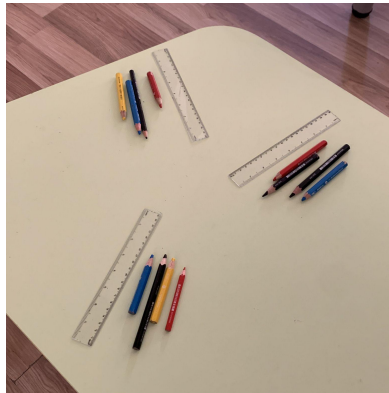

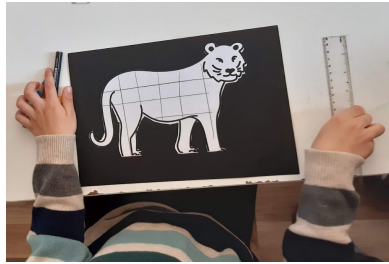

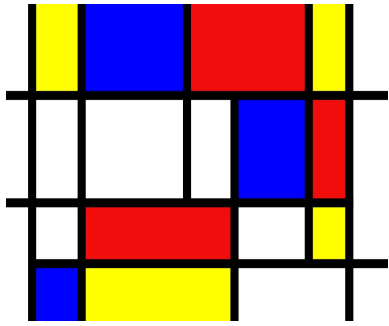

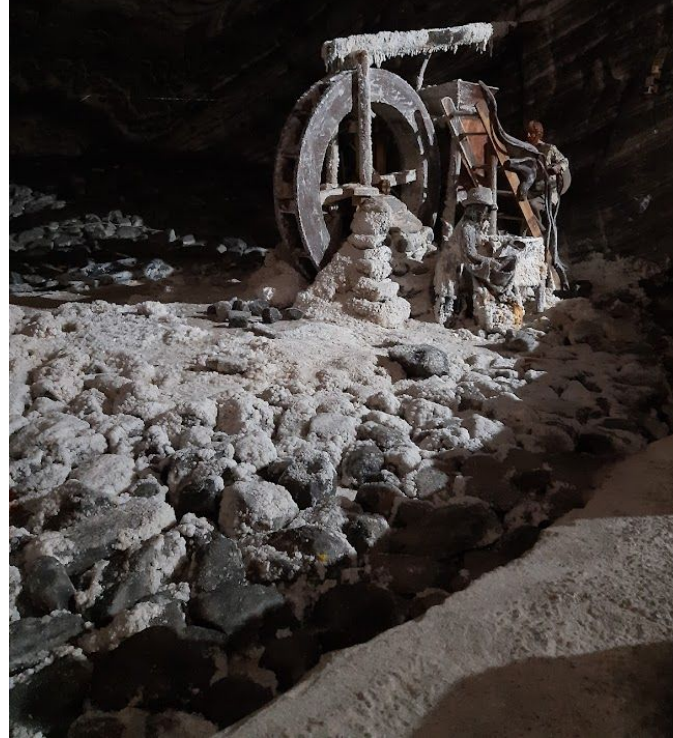

Learning to read with fun activities

Art (Mondrian) and Geometry

Thursday Nov. 3rd: Salt Mine of Ramnicu Valcea.
There are seven salt mines in Romania, five of
them are open to the public.

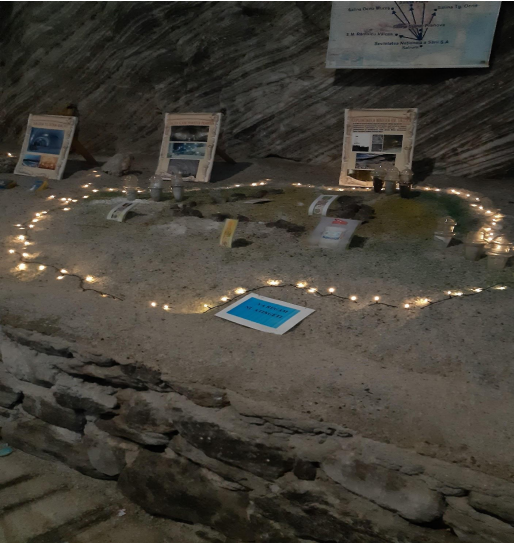

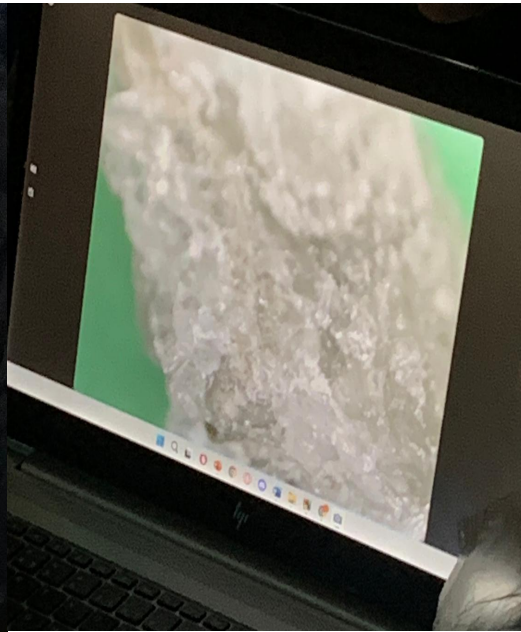

We received an Orthodox blessing, before starting our classes...

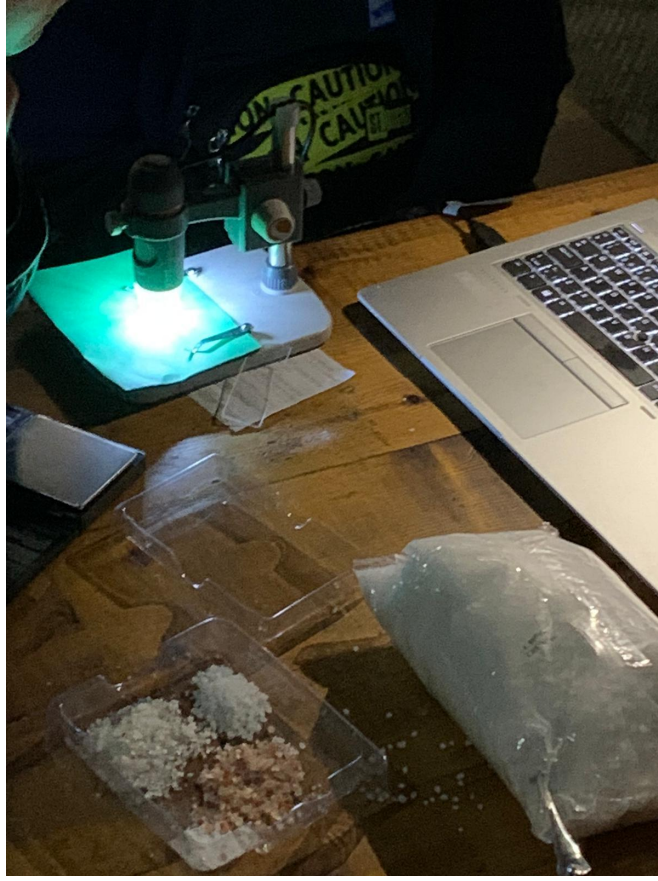

Lesson in the mine:

- Geography
- Science
- History

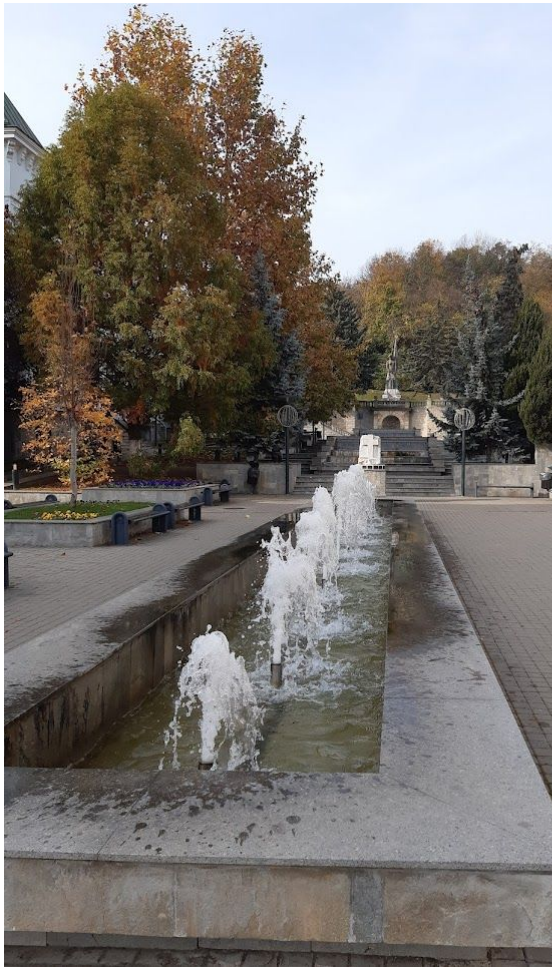

Looking at salt crystals through a microscope lens

Reordering common food according to their salt content.
Learning to read food labels. We had some surprises!

Autumn colours
in Ramnicu
Valcea

Friday visiting the Public Pre-Primary School

Orff Music methodology:
children keep the rhythm using sticks, bells,
pinching air balloons, waving coloured sheets

The rocky path has been created and painted by the children together with their teachers.

Learning by walking...

Here is where all the natural material is deposited
