# Gamification and Game-based Learning

Gamification in education means that educators apply game design elements to an educational setting. Games can introduce goals, interaction, feedback, problem solving, competition, narrative, and fun learning environments, elements that can increase learner engagement and sustain motivation. The goal is usually to make learning more engaging.

Notes:

# Gamification

Use of various apps for the creation of multimedia products suitable for encouraging learning:

- ❖ WORD WALL
- ❖ BLOOKET
- ❖ CLASSCRAFT
- ❖ GOOSECHASE
- ❖ EDPUZZLE
- ❖ POWTOON
